

Danesh Arunothayam

SAP CPI/PI/PO CONSULTANT

Profile

- SAP PI/PO/CPI Consultant with 3 years of expertise specializing in SAP BTP - Integration Suite (Cloud Integration) and SAP PI/PO integration
- Proficient in designing, configuring, and deploying integration solutions.
- Experienced in handling various adapters and troubleshooting integration issues.
- Skilled in ensuring smooth project execution and delivery.
- Proven ability to work collaboratively in cross-functional teams.
- Demonstrated expertise in delivering high-quality integration solutions.

Employment History

Senior System Associate, Infosys, Chennai

JULY 2021 – PRESENT

- Led SAP PI/PO/CPI projects focusing on end-to-end integration design, development, and deployment.
- Well-versed in all areas of SAP CPI, including mappings, adapter configurations, content-based routing, and establishing secure connectivity.
- Experienced in integrating SAP systems, non-SAP systems, and third-party cloud applications using SAP Cloud Platform Integration.
- Worked on end-to-end configuration scenarios using adapters such as REST, SFTP, IDoc, SOAP, Mail, RFC, OData, and ProcessDirect.
- Implemented exception handling and custom exception messages in SAP CPI.
- Enhanced existing integration processes to support critical business functions
- Additionally Participated in the EDC to FDC data center migration project.
- Utilized HTTP, SOAP, SFTP, JMS, RFC, and IDoc adapters for various integration scenarios.
- Provided expert troubleshooting and resolution of integration-related issues.
- Monitored and handled errors using the Runtime Workbench and Error Handling Framework of CPI.
- Conducted SAP CPI migration tasks to ensure seamless transition and functionality.

Key Projects

Integration Improvement Project

- Improved integration processes to enhance efficiency and reliability.
- Collaborated with cross-functional teams to gather requirements and design scalable solutions.

Data Center Migration Project

- Played a key role in migrating the data center from EDC to FDC, ensuring minimal downtime and maintaining high data integrity.
- Conducted SAP CPI migration tasks to facilitate a seamless transition and maintain system functionality.
